EPD stakeholder and PCR moderators survey 2014

An important part of our efforts to improve the International EPD® System is the feedback we receive from our stakeholders. We therefore launch two annual surveys, one for general feedback on the program and one specifically aimed for PCR moderators. Two similar surveys was performed in 2013, and it is now time to follow-up.

Annual meeting for Cendec in Prague

Cendec (Czech Centre of Environmental Declaration) have annual meeting on October 23rd in Prague. Currently Cendec has established its work and several professional associations like Czech Green Building Council and/or Association of Chemical Industry cooperate with Cendec on development of ecolabeling, especially on EPDs, in Czech Republic. Cendec have established cooperation with Czech Ministry of Environment and is involved in ministry plans for further development of ecolabeling and green procurement. For more information contact Kocil Vladimír, e-mail: vlad.koci@vscht.cz

New newsletter layout

As you can see the International EPD System Newsletter has got a new layout.

We are grateful getting comments both of the layout and the content.
