THE INTERNATIONAL EPD® SYSTEM

Open consultation of V2.5 of the general programme instructions

To fulfill the latest developments in the market for environmental declarations, standardisation and LCA methodology the General Programme Instructions of the International EPD® System are currently being updated to version 2.5.

To ensure credibility and as required by ISO 14025, the General Programme Instructions are subject to open consultation before being applicable.

Frequently Asked Questions (FAQ)

- [What are the key objectives of environmental declarations?](#)

- [What is the validity of the PCR documents?](#)

The International EPD® System is a programme for voluntary and transparent communication of the life cycle environmental impact of goods and services. With more than 15 years of experience, and a library consisting of certified environmental product declarations from 25 countries, EPD® serves as a credible choice for B2B and B2C communication based on ISO 14025 and other international standards.

The programme operator of the International EPD® System is EPD International AB, registered in Sweden. EPD International is a subsidiary to IVL Swedish Environmental Research Institute.
